Breast cancer survivors who are provided a tailored care plan are more likely to receive recommended care

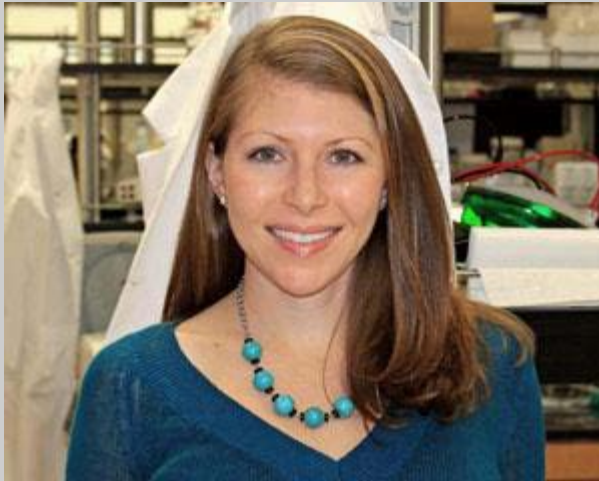

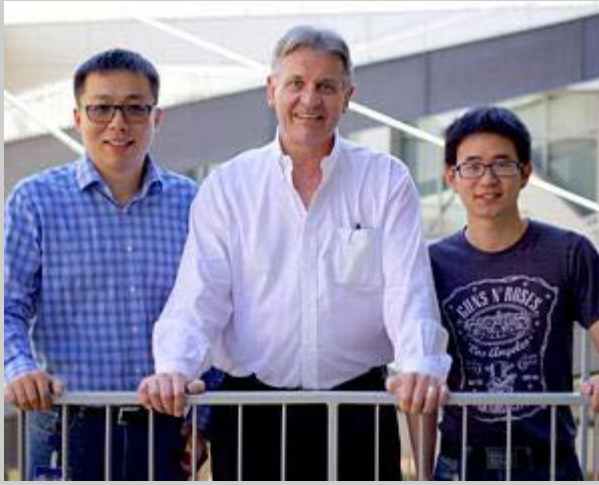

Physicians of low-income breast cancer survivors are more likely to implement recommended survivorship care if the survivors also receive counseling and a tailored survivorship care plan, new UCLA research has found. The study, led by Drs. Patricia Ganz and Rose Maly, was published online in the *Journal of Clinical Oncology*.

Save the date for Taste for a Cure

We hope that you will help us celebrate Taste for a Cure's 22nd Anniversary in grand style. Scheduled for April 28, the JCCF's annual signature fundraising event will feature unforgettable California food and wines while honoring Yael and Scooter Braun with the 2017 Gil Nickel Humanitarian Award. The funds raised at this event through ticket sales, auction items and fund-a-grants, help fuel the Cancer Center's highest priority research initiatives. Tickets and more details are available at www.tasteforcure.com.

Funding opportunities

As a member, you can access all the latest intramural and extramural research grant opportunities via our UCLA CCLE online resource
